For information/appointments call: (925) 458-6125

Offers chest x-ray services, if required

### **Procedure:**

New employees are required to pay *any and all costs* associated with their TB tests. This includes any subsequent chest x-rays at the Muir/Diablo Occupational Medicine facility in Concord, Brentwood or Walnut Creek, the Concentra Medical Center in Richmond, or Willow Pass Medical Group in Bay Point if you test positive on the PPD skin test.

Existing employees are required to renew their TB certification every four years which may include PPD skin tests and/or chest x-rays, if required, and are allowed time away from their normal work hours for this purpose. If the employee elects to go to one of the District's physicians listed above, the District is invoiced and there is no cost to the employee. However, if the employee elects to go to another physician, he/she will be reimbursed for the test only in the amount charged by the District's lowest cost physician.
